

**ANU Cybercrime Observatory landing page:**

**Oops! This was a test from the ANU Cybercrime Observatory Experiment “Wi-Fi Usage and Cybercrime Risks in University Student Communities”.**

We are testing participants’ susceptibility to spear phishing and scam/spam attempts.

This notification indicates that you have fallen for a **FAKE** spam/phishing attempt. Don’t worry, as this was not a legitimate spam/phishing attempt any identifying information you may have provided is not compromised. Your participation in this study is of great value for our research as we attempt to identify where our online vulnerabilities lie and how we can protect

ourselves.

**PLEASE NOTE:** during our research phase you may in fact be exposed to ‘real’ scams/spam/phishing attempts. Remain vigilant and be careful about your online activity.

For useful **cyber safety information** visit:
